

## "ENABLERS" TO REDUCE COST

To meet individual needs, we include "**Enablers**" for organizations to choose the types of service they require. Technology-**Milestones** (TM) has over 65 enablers that can be viewed at <https://www.technologymilestones.com/enablers>. Once your list of desired enablers has been submitted, a firm and fixed price will be delivered... it's as easy as 1,2,3.

## TM IS READY TO FILL THE GAPS

Technology**Milestones** can help you 25%, 50%, 75% or 100% of the time. If your organization already has the staff to perform many of the enablers, wonderful. Technology**Milestones** can fill in the gaps. Perhaps your SME (Subject Matter Expert) is out sick for the week? The customer is requiring a discussion around technology that you are not comfortable with? You need to update your environment, should you go to cloud, do you need IoT? Do you need to learn about the latest technology trend? Lean on Technology**Milestones**, making our customers the hero.
